

## Our approach

### Strategy and grant advice

Strategic grant advice with the aim of obtaining a grant for the achievement of your business objectives.

### Our sectors

- + Water and delta technology
- + Medical technology and innovation
- + Energy and circular economy
- + Sustainable and innovative regional development
- + Innovative techniques

### Project definition and cooperation

The project definition is essential: it is the thread that runs through the entire process in order to write an application that fits in well with your strategy and the criteria of the grant scheme.

### Project testing and grant applications

Once the definition of the project has been checked, the application can be drawn up: good preparation increases the chances of success.

### Compliance and support

The grant awarded must be properly and timely reported in accordance with the rules. Together with you, we ensure that all rules and conditions of the grantor are implemented in your administration.

### What we can do for you?

- + We have specific knowledge of your sector, trends and developments
- + We translate our knowledge into maximum grant opportunities
- + We think along to achieve your strategic business objectives
- + We aim for long-term relationships

*Evers + Manders, your creative sparring partner.*
